Carlos Jackson Executive Director

December 5, 2006

Honorable Board of Commissioners Community Development Commission of the County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, California 90012

Dear Commissioners:

APPROVE THE PURCHASE OF CISCO SWITCHING EQUIPMENT UTILIZING AN ESTABLISHED COUNTY PURCHASE AGREEMENT (ALL DISTRICTS) (3 Vote)

CIO RECOMMENDATION: (X) APPROVE

() APPROVE WITH MODIFICATION () DISAPPROVE

IT IS RECOMMENDED THAT YOUR BOARD:

- 1. Find that the purchase and installation of new switching equipment, to upgrade the Commission's electronic communications network, is not subject to the California Environmental Quality Act (CEQA), because the proposed activity will not have the potential for causing a significant effect on the environment.
- Approve and authorize the Executive Director to execute a purchase order with Sarcom, Inc., a vendor qualified by the County's Purchasing Agent, and authorize the Executive Director to use for this purpose \$134,444.14 included in the Commission's approved Fiscal Year 2006-2007 budget.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The purpose of this action is to replace the current switching equipment, which has become overburdened by expanded use of networking applications.

Honorable Board of Commissioners December 5, 2006 Page 2

FISCAL IMPACT/FINANCING:

There is no impact on the County general fund. The purchase will be funded with \$134,444.14 included in the Commission's approved Fiscal Year 2006-2007 budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

Applications such as high speed document scanning have caused the Commission to outgrow its Wide Area Network and Local Area Network. The new switching equipment will allow data to move more quickly along the network, allowing employees to more efficiently perform daily activities from their desktop computers.

Cisco Systems, Inc. is one of the major manufacturers of networking hardware, and is widely used in the County's existing communications infrastructure. The company has confirmed that the proposed upgrade will provide increased bandwidth, improve scanning transmission speeds, and reduce the network latency that staff currently experiences.

The new switch will cost \$134,444.14 and will be covered by Cisco Systems Inc.'s maintenance program. Qualified vendors of the needed equipment provided by the County's Internal Services Division were contacted to provide quotes. Since Sarcom, Inc. provided the lowest quote and maintains a cooperative agreement, the Commission will utilize the terms and conditions of the County's existing agreement with Sarcom to purchase the networking equipment.

ENVIRONMENTAL DOCUMENTATION:

The proposed purchase and installation of new switching equipment is exempt from the National Environmental Policy Act (NEPA) pursuant to 24 Code of Federal Regulations, Part 58, Section 58.34 (a)(3), because it involves activities that will not have a physical impact or result in any physical changes to the environment. The activities are also not subject to the provisions of CEQA pursuant to State CEQA Guidelines 15060(c)(3) and 15378, because they are not defined as a project under CEQA and do not have the potential for causing a significant effect on the environment.

CONTRACTING PROCESS:

The Commission will utilize County Agreement No.42793 with Sarcom, Inc. to purchase the networking equipment.

Honorable Board of Commissioners December 5, 2006 Page 3

IMPACT ON CURRENT SERVICES:

The new switching equipment is necessary to make the Commission's information technology network infrastructure fully operational.

Respectfully submitted,

CARLOS JACKSON
Executive Director
